PROFESSIONAL PROFILE

IT graduate with hands on experience across web and mobile development, working with PHP and MySQL at iKhono, JavaScript and React at Plum Systems, and React Native with C# and .NET at MetroLink.
Experienced in designing database structures, building secure endpoints, managing code through GitLab, and supporting deployment processes including DNS configuration, FTP based deployments, and cloud deployment via Railway.
A dependable and detail oriented full stack developer who performs well in structured, fast-paced environments. Now seeking an entry level or junior software development role where I can continue to grow technically across both web and mobile platforms while contributing meaningfully to a professional development team.

KEY SKILLS

- Database Management: MySQLWorkbench, SQLite
  SpringBoot Framework (MVC, CRUD, Security)
- Object-Oriented Programming with Java (Swing)
  HTML, CSS, JavaScript & React
- Python Programming
  JUnit Testing
- Git, GitHub & GitLab Version Control
  Software Design Principles & Practices
- VS Code / Repository Management
- Trello Project Management
- Joomla CMS (Backend & Frontend)
- C# & .NET Development
- React Native (Expo)
- Railway (Cloud Deployment)

EDUCATION

National Senior Certificate
Silversands Secondary School
(2019)
School Prefect in Matric

Higher Certificate in Information Communication and Technology
Cape Peninsula University of Technology
(2021)

Diploma ICT in Applications Development
Cape Peninsula University of Technology
(2022 - 2024)

Advanced Diploma ICT in Applications Development
Cape Peninsula University of Technology
(2025)

Experience

JUL 2024 – JUN 2025 Duration: 12 months

Web Developer Intern | Plum Systems
HTML5, CSS3, JavaScript | Joomla | React | Bootstrap | GitLab

API Property & OfficePlace Production
• Contributed to the development and maintenance of production web applications for business clients.
• Developed and enhanced frontend features using JavaScript and React to improve usability, responsiveness, and UI consistency.
• Built and customised website components, forms, and content pages using Joomla CMS.
• Applied Bootstrap to ensure responsive and user-friendly interface designs across devices.
• Resolved bugs and implemented feature updates, pushing code via GitLab for review and integration.
• Assisted in maintaining live production systems, ensuring performance stability and client satisfaction.

JAN 2026 – PRESENT

Lead Developer Intern | iKhono
HTML5, CSS3, JavaScript (Vanilla) | PHP 7.4+ | MySQL | REST APIs | DNS Management | FileZilla
iKhono – Artisan Services Platform | Startup Project

Developing a web-based platform that connects artisans and service providers with clients, focusing on service discovery, bookings, and profile management.

Summary and Responsibilities:
• Designed and implemented database schemas to support core platform functionality using PHP and MySQL.
• Assisted with frontend functionality including dynamic filtering, form handling, and API integration using JavaScript.
• Built and tested secure endpoints for bookings, reviews, and enquiries, with a focus on data validation.
• Assisted with DNS configuration and deployed website updates using FileZilla (FTP).
• Contributed to both client-facing and service-provider interfaces across the web platform.
