PROFESSIONAL PROFILE

IT graduate with practical experience in web application development gained through internship roles at Plum Systems and TedxDurban. Contributed to frontend enhancements using JavaScript and React, while also supporting backend development through PHP, MySQL, and REST API implementation.

Experienced in designing database structures, building secure endpoints, managing code through GitLab, and supporting deployment processes including DNS configuration (KonsoleH) and FTP based deployments using FileZilla within Apache hosting environments.

A dependable and detail oriented developer who performs well in structured, fast paced environments. Now seeking an entry level or junior software development role where I can continue to grow technically while contributing meaningfully to a professional development team.

KEY SKILLS

- Skilled using Database Mangement Systems : MySQLWorkbench, SQLite
- Experienced with using SpringBoot Framework through MVC, CRUD operations and Security.
- Object Orientated Programming using JAVA with experience using Swing
- Knowledgeable in HTML, CSS & React/Javascript

- Familiar with Python Programming
- Conducting JUnit Testing
- Experienced in Git/Github & Gitlab Version Control
- Familiar with Software Design Principles/practices
- Proficient in VS Code/repository management
- Solid experience in Trello Project Management
- Skilled in Joomla (backend and frontend development)

EDUCATION

National Senior Certificate
Silversands Secondary School
(2019)
School Prefect in Matric

Higher Certificate in Information Communication and Technology
Cape Peninsula University of Technology
(2021)

Diploma ICT in Applications Development
Cape Peninsula University of Technology
(2022 - 2024)

Advanced Diploma ICT in Applications Development
Cape Peninsula University of Technology
(2025)

Experience

JUL 2024 - JUN 2025
Duration: 12 months

Web Developer Intern | Plum Systems

HTML5, CSS3, JavaScript | Joomla | React | Bootsrap | GitLab

API Property & OfficePlace Production

- Contributed to the development and maintenance of production web applications for business clients.
  - Developed and enhanced frontend features using JavaScript and React to improve usability, responsiveness, and UI consistency.
  - Built and customized website components, forms, and content pages using Joomla CMS.
  - Applied Bootstrap to ensure responsive and user-friendly interface designs across devices.
  - Resolved bugs and implemented feature updates, pushing code via GitLab for review and integration.
  - Assisted in maintaining live production systems, ensuring performance stability and client satisfaction.

JAN 2026 - PRESENT

Junior Software Developer Intern | TedxDurban

HTML5, CSS3, JavaScript (Vanilla) | PHP 7,4+ | MySQL | REST APIs | DNS Management | FileZilla

IKHONO - ARTISAN SERVICES PLATFORM

Startup Project:

Develop a web based platform, **iKhono**, that connects artisans and service providers with clients. Build a responsive user interface for service discovery, bookings, and profile management, as well as implementing **PHP and MySQL** backend to handle users, professionals, bookings, reviews, and enquiries.

Summary and Responsibilities:

- Designed database schemas and implemented backend logic using **PHP and MySQL**
- Assisted with frontend functionality using JavaScript for dynamic filtering, form handling, and API integration.
- Built secure endpoints for bookings, reviews, and enquiries, ensuring data validation and consistency.
- Assisted with DNS configuration (Konsoleh) and deployed website updates using FileZilla (FTP).
